

Exploring and Sharing – A Look at Mental Health and its Impact on our Lives

Please join the Belmont Health Collaborative, the Belmont Health Department, and Wayside Youth and Family Services, for a conversation concerning issues related to mental health.

When: Tuesday, May 17, 2016

Where: Belmont Public Library – Assembly Room

Time: 10:00 – 11:30 A.M.

This Community Dialogue is for people who struggle with mental illness and for the families and friends of those who struggle. We invite you to come together, share your story, lend support, and learn about local resources.

We will begin by hearing briefly from a panel of professionals, individuals living with mental illness, and family members. We hope you will consider sharing your experiences and concerns as well.

Let's engage together in this important conversation.
